(Art. Nr. 20 605)

CONDITION-SPECIFIC ARCTIC ORGANIC POLYPHENOL EXTRACTS

HIGH-CONCENTRATION OPC EXTRACT FOR GUT HEALTH, CARDIOVASCULAR HEALTH, LONGEVITY

Organic Pine bark extract powder 70±5% OPC
(USP) FENOPROLIC® 70 Organic
(Art. Nr. #20 736)

Fenoprolic® 70 Organic is a multifunctional ingredient with bioactivity demonstrated in over 140 biomarkers. It contains 70% OPC (Oligomeric Proanthocyanidins). The bioactivity profile of Fenoprolic® is proven to be nearly identical to the market leader extract powder, with a range of haemostatic, anti-inflammatory, and microbiology-modulating properties. Fenoprolic® 70 Organic has the highest purity level in the market. Eevia manufactures the product from pine bark harvested sustainably from trees that grow in the cleanest soil on the planet.

Please see the sales sheet for more information or our product pages: Organic Pine Bark Extract - Eeviahealth

HIGH-CONCENTRATION POLYPHENOL (PAC) EXTRACT FOR GUT HEALTH, METABOLIC CONDITIONS

**Organic lingonberry extract powder 50% polyphenols
- 20% PACs**
(AOAC 2015.009, DMAC) FENO-VITIS® 50 Organic
(Art. Nr. #20 230)

Feno-Vitis® 50 Organic is a high-quality metabolic and microbiome-modulating health ingredient with a high concentration of polyphenols and six different A-type PACs (Proanthocyanidins). The extract is manufactured from wild-harvested Lingonberries (Arctic Cranberries) that grow abundantly in the northern coniferous forests of Finland and Sweden. The standardized powder extract Feno-Vitis® 50 Organic is an excellent ingredient in dietary supplements for gut health, anti-inflammation, longevity, and vitality.

Please see the sales sheet for more information or our product pages: Organic Lingonberry Extract - Eeviahealth

CUSTOM-MADE POLYPHENOL EXTRACTS FOR YOUR BRAND

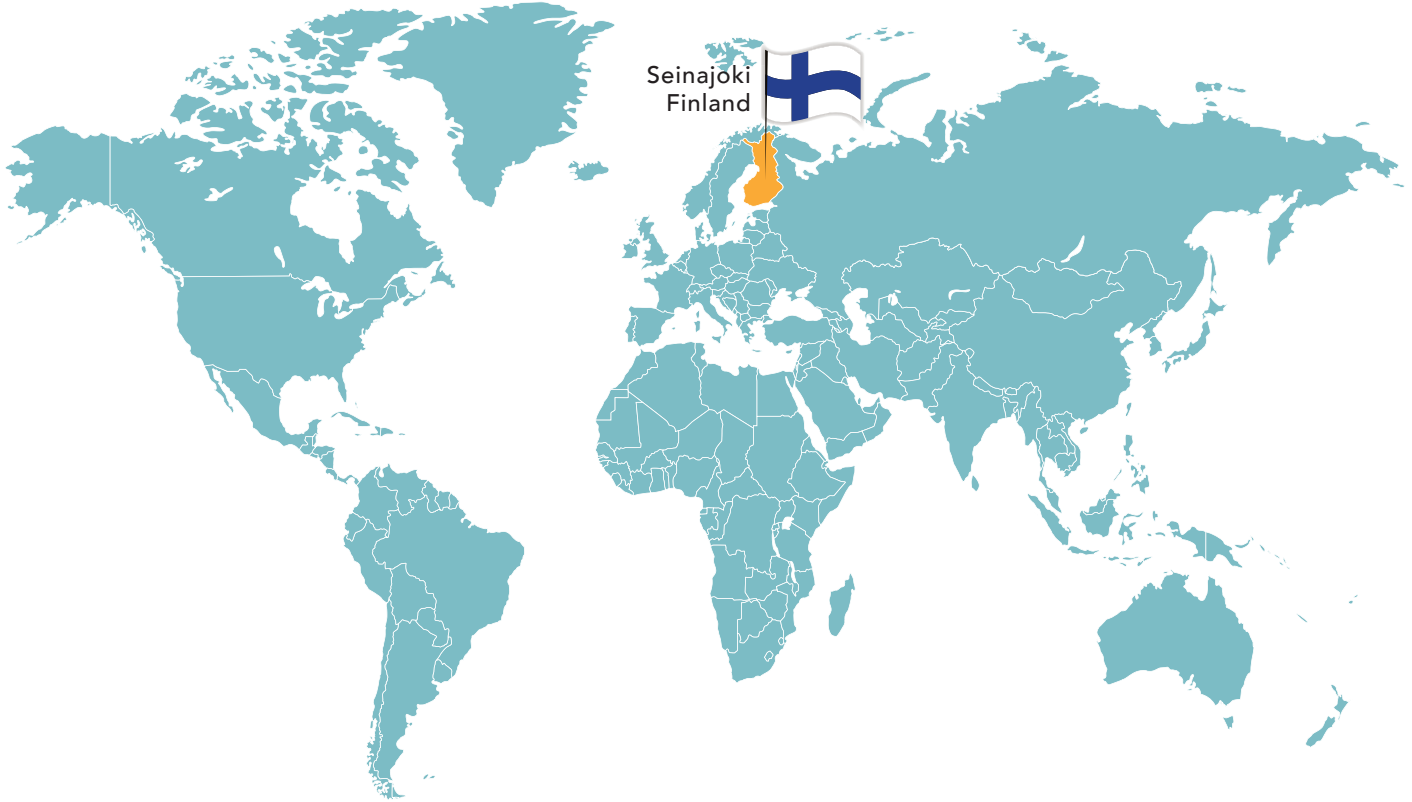

Eevia Health also manufactures custom-made extracts for customers based on requests. We have a versatile extraction, purification, and spray-drying manufacturing platform at our plant in Finland. We can produce extracts according to your specifications. We can also help in developing new extracts based on requests.

The raw materials must be natural plant material of high and defined quality and without allergens.

In some cases, these products are derivatives of our products, for instance, mixes or blends of different SKUs we have. However, we also manufacture very different extracts for some customers.

Just send us a request at sales@eeviahealth.com and we can discuss the feasibility of your idea.

**WILD-HARVESTED, RENEWABLE, REGENERATIVE,
ORGANIC, SHORT TRAVELLED, SOCIALLY RESPONSIBLE,
UPCYCLED, CIRCULAR, SUSTAINABLE, ECO-FRIENDLY WITH
LOW CARBON FOOTPRINT, TRANSPARENT, AUTHENTIC**
